FROM WASHINGTON.

Celebration of the Republican Victories.

The President Serenaded—A Short Speech.

Important Internal Revenue Decision.

Clerical Changes in the Interior Department.

WASHINGTON, November 6, 1875.

GOLD FOR SAN FRANCISCO.

The Treasurer to-day directed the transfer of three hundred thousand dollars in gold from New York to San Francisco, two hundred thousand of which are for the Bank of California and one hundred thousand for the Anglo California Bank.

CELEBRATING THE REPUBLICAN VICTORIES.

A hundred guns were fired this evening by the Republicans in honor of the political victories of Tuesday last. A procession was formed and marched to the Executive Mansion, where the people serenaded the President, who acknowledged the compliment as follows:

Gentlemen: I am glad to meet you on this occasion and congratulate you on so good a cause for rejoicing to the entire country over the elections of last Tuesday. While the Republican majorities were not great, they were sufficient to accomplish the purpose. The "Rag Baby" has been entirely suppressed, and the people now know what kind of money they are to have in the future, and I think we have an assurance that the Republicans will control this Government for at least four years longer.

Three cheers were then given for the President, three cheers for hard money and three cheers for the President's school policy. The procession marched to the residence of the Secretary of the Navy. It was there announced that Mrs. Robeson returned thanks for the serenade to the Secretary, who was absent from the city. Ex-Gov. Shepherd was next serenaded, and made a speech.

CLERICAL CHANGES IN THE INTERIOR DEPARTMENT.

The following clerical changes in the Interior Department have been ordered by Secretary Chandler to-day: John Stiles, of Washington, D. C., is made Appointment Clerk, vice John B. Thompson, transferred to a clerkship in the Pension Bureau. G. W. Partridge, of Michigan, is appointed Law Clerk, vice James Rexington, resigned. The ante-room of the Secretary's office was pretty well filled by nine o'clock to-day by applicants for office, most of whom were women. The Secretary received all applicants courteously, but has almost invariably said, "There are as yet no vacancies. When there are your application will receive proper consideration." As yet the Secretary has been able to do little except to see callers, and investigate the workings of the different bureaus of the Department.

POSTMASTER AT VICKSBURG.

The President to-day appointed John B. Raymond postmaster at Vicksburg, Miss., in place of Henry R. Pease, suspended under the tenure of office act. Pease was elected United States Senator from Mississippi from February, 1874, to last March, the unexpired term of Governor Ames. He was then appointed postmaster at Vicksburg, and has now been removed through the influence of his colored successor, United States Senator Bruce, aided by a delegation from Mississippi.

INTERNAL REVENUE DECISION.

The Commissioner of Internal Revenue has decided that under the statutes all inventions for ageing spirits when brought into use in bonded warehouses, according to propositions made to the Department, constitute a work of rectification and purification, and those using such processes become rectifiers of spirits, and subject to taxation as such.

LIBEL SUIT.

LIVERPOOL, November 6.—The proprietors of the London *Times* have been sued for libel for denouncing the operations of the Co-operative Credit Bank as a scandal and disgrace to the city, strongly intimating that it is swindling the public.

POSTAL CARDS.

Twenty million, one hundred and thirty-two thousand postal cards were issued by the Postoffice Department last month, the largest issue by at least 5,000,000 ever made in the same time.

WASHINGTON, November 7, 1875.

THE INDIAN BUREAU.

Secretary Chandler is yet undecided what recommendation, if any, he will make in his annual report with reference to the Indian Bureau. He has not yet determined to recommend the transfer of the Bureau to the War Department, as has been stated. Whatever action is taken will be in accordance with the views of the President and all the members of the Cabinet.

CLAIM DISALLOWED.

The First Comptroller of the Treasury has disallowed the claim of the State of Nebraska for $53,938, being five per cent. on the value, at $125 per acre, of the estimated quantity of Indian reservations in that State.

CROOKED WHISKY.

Preparations for the Prosecution of Swindlers in St. Louis.

ST. LOUIS, November 6.—Col. E. R. Chapman, head of the Stamp Bureau at Washington, who, with Gen. Lucien Hainley, made the investigations which resulted in the seizures of distilleries and rectifying houses here during the past summer, has arrived here to assist in preparing the whisky cases, which are to come up during the next term of the United States Court. Though many of the accused have put in a plea of guilty, it is still necessary to put in a certain amount of evidence, that the Judge can intelligently sentence the delinquents. Col. Chapman states that any amount of testimony is in the hands of the Goverment, more than it will be necessary to produce, especially in the cases in which the accused have pleaded guilty. It is also stated that overtures have been made at Washington in behalf of some of the guilty men, offering a surrender of all they possess on condition that the Government will not press the criminal part of the proceedings. These overtures, it is asserted, have been received with no disposition to consider them. The Grand Jury adjourned at noon till Monday, without presenting any new indictments to to the Court.

OUT-DOOR SPORTS.

Jerome Park Races.

NEW YORK, November 6.—First race, selling sweepstakes, ¾ mile; won by Josie B. Time, 1:20.

Second race, free handicap sweepstakes; won by Madge. Time, 3:15¾.

Third race, for the members' cup, free handicap sweepstakes, the members of the club to ride, 1 mile; won by Big Sandy. Time, 1:52.

Fourth race, free handicap sweepstakes, 1 mile, won by Madge. Time, 1:48.

Fifth race, handicap steeple chase; won by Resolute. Time, 4:25.

RACE AT SAN FRANCISCO.

SAN FRANCISCO, November 6.—At the Bay District track yesterday, in the 2:26 trot, three in five, Oakland Maid won the second, third and fourth heats in 2:27, 2:36¼ and 2:29. Sam Burns took the first in 2:25 1-2.

RACES AT WASHINGTON.

WASHINGTON, November 6.—The trotting matches prevented by the weather during the week took place to-day. First race, mile heats, best three in five; Frank Munson won in three straight heats. Time 2:45, 2:45 and 2:42 1-2.

The second race was for local horses.

The Mormon Alimony Case.

SALT LAKE, November 6.—Owing to the sickness of Chief Justice White, there has been no session of the Third District Court for several days past. Judge Boreman has been requested by Judge White to remain here temporarily and assist in disposing of the business of this court. The motion to vacate the alimony order of Judge McKean will naturally come up on Saturday next, and possibly before Judge Boreman. The health of the Chief Justice is improving, and he may be able to sit on the bench next week. Meanwhile Brigham remains a prisoner at his house, with improving health.

College Ruffianism.

PLYMOUTH, N. H., November 6.—About a dozen of the students in Hanover College have been held in bonds to appear on trial in March at Haverhill, on a charge of disorderly conduct at a book auction, in the store of J. B. Parker, breaking the windows and forniture, and assaulting Mr. Parker and his clerk. The students were arrested while in bed, and in the morning were taken to the railroad depot, followed by four hundred yelling collegians, who found the plaintiff, Parker, there, and hustled him into the ticket office, where they kept him until the train had started for Haverhill.

Marine News.

LONDON, November 6.—The steamships Abyssinia and Castalia, from New York, have arrived out.

NEW YORK.

The Moody and Sankey Revival.

Another Investigation of the Charges Against Beecher.

THE LOADER PERJURY CASE.

NEW YORK, November 6, 1875.

THE RELIGIOUS REVIVAL.

The Brooklyn Tabernacle was filled this morning at the revival services. Mr. Sankey was not present, and Rev. Fred. Bell took his place, leading the singing of "Jesus Lover of My Soul," "Nearer My God to Thee," and other hymns. Mr. Moody said he had a great many requests for prayer, and all but four asked prayers for others. He wished to have more people requesting prayers for themselves. Mr. Moody then read the twenty-eighth chapter of Acts, basing his discourse upon the incident of St. Paul and the viper. He read, as a further lesson, St. Paul's epistle to the Corinthians and the fifth verse of the fifth chapter of Matthew, "Blessed are they who do hunger and thirst after righteousness." He hoped they all thirsted after this righteousness. He did, and he prayed that God might fill him with it, and that they should not ask for drops, but floods of it.

Mr. Needham, the Irish evangelist, offered a fervent prayer for the blessing of God on their work, and was followed by representative clergymen in their several denominations, one of whom said he thought the cause of Christ would be furthered if they stopped patronizing grocers, butchers, barbers and street cars on the Sabbath, but was interrupted by Moody saying they must not depart from the subject before them.

After the congregation was dismissed Mr. Moody called the clegymen about the platform for a conference, in which Rev. Henry Ward Beecher participated. Their principal business was the laying out of work for next week, and discussing the best course to pursue for bringing souls to Christ.

The *Sun* says: "It is not pleasant to hear that Moody and Sankey have got out an injunction to prevent another party from printing and circulating their hymns. The joining of the business of selling hymn-books to that of saving souls is not seemly."

ANOTHER INVESTIGATION OF THE CHARGES AGAINST BEECHER.

The following named are committeemen charged with the duty, according to the resolution passed by the Congregational ministers, of thoroughly investigating the charges against Mr. Beecher, and reporting to the Congregational Association for advice as to his fitness as a fellow member: Rev. Wm. M. Taylor, of Broadway Tabernacle, New York; Rev. Dr. Wm. Ives Budington, of Clinton Avenue Church, Brooklyn; Rev. Profs. Parsons and Martin, of the New York Theological Seminary, and Rev. Chas. H. Everet, of the Church of the Puritans, Brooklyn. The investigation will be thorough, and will begin with a careful scrutiny of the evidence made public in and out of the trial. New evidence will be sought. The meeting of the committee will be in private, but the verdict will be published. The Plymouth Church has referred to the committee the charges of adultery made by Mrs. Moulton, against her late pastor, Rev. Henry Ward Beecher.

MISSING HYMN BOOKS.

Rev. Dr. Fulton, pastor of Hanson Place Baptist church, at a meeting of his society, said he would not be with them next week, as he had an engagement at Granville, O., for Wednesday next. He had received their letter requesting him to withdraw his resignation, and would take the letter and request under prayerful consideration, and give his answer to-morrow. Prior to the closing of the meeting Dr. Fulton said he purchased four hundred Moody and Sankey hymn books, and put them in the seats of the chapel, but he discovered that many of them had been taken away. He hoped each member would leave a hymn book to supply the place of the missing ones.

THE LOADER PERJURY CASE.

The case of Joseph Loader, indicted for perjury in connection with the Beecher trial, came up before Judge Morris to-day in the Brooklyn Court of Sessions. Loader's counsel made a motion for an order that a commission be appointed to go to the Montclair, N. J., and take the testimony under oath of Joseph H. Richards and his wife, to be used on the trial. The counsel said the affidavit of the defendant showed that this was necessary. The motion was opposed by the District Attorney, and after a short argument the Judge took the papers, reserving his decision. The Court denied the motion recently made to quash the indictment against Loader.

REDUCTION IN CABLE RATES.

The *Evening Post* says: We understand that the result of the late competition between the cable companies is that both have agreed to charge the same rates, seventy-five cents gold per word.

NEW YORK, November 7, 1875.

THE RELIGIOUS REVIVAL.

Thousands attended all the Moody and Sankey services, held at the Brooklyn Rink to-day. At the meeting in the morning the large building was filled with people. Sankey sang several of his favorite hymns. Moody's discourse was interspersed with a number of touching stories, which affected many of the audience to tears.

In the afternoon 2,000 or 3,000 people were unable to gain admission to the Rink. Moody discoursed from the seventh verse of St. Luke II. He urged his congregation to banish pride and the love of the world from their hearts, and make room for God. Sankey sang at the close "Kocking at the Door." The services at night were exclusively for the benefit of sinners, and all those who confessed themselves sinners were furnished with tickets of admission.

Probably the morning congregation was made up of Sabbath school teachers. Moody's discourse was about "love and sympathy."

Moody's evening discourse to women only was from the text: "And they laid him in a manger, because there was no room for him in the inn."

Conductors' Brotherhood.

ATLANTA, November 6.—The Conductors' Brotherhood adjourned to-night. Grand Chief Conductor Conzen, of Crestline, O., was expelled and W. L. Collins, of Hornellsville, N. Y., elected in his place; Conductor C. A. Stannchfield, of Creston, Iowa, Assistant Grand Chief; W. Long, of Fort Wayne, Grand Secretary; J. M. Bradley, of Atlanta, Grand Treasurer; Calvin S. Wheaton, of Elmira, N. Y., Grand Conductor of Ceremonies; W. K. Morse, of Omaha, Grand Inside Sentinel; Lewis Kugler, of Catawissa, Pa., Grand Outside Sentinel; M. L. Smith, of Pittsburgh, Past Grand Chief Conductor. The next meeting will take place on the first Tuesday of November, 1876, at Omaha. There was a banquet last night, and there will be a grand excursion to Florida on Monday next.

Terrific Boiler Explosion.

LISTOWELL, ONT., November 6.—A sixty horse power boiler in Hess Bros' saw mill exploded this morning, making a total wreck of the entire mill, the first story of which was built of stone. The windows in nearly every house in town were smashed. Many stores had their fronts blown out. No lives were lost. The loss is heavy.

CENTENNIAL INCIDENT.

Benjamin Franklin and His Son in the Revolution.

Some twenty years since that eloquent divine, the Rev. Dr. Hawks, rector of Calvary church, New York, was appointed historian to the Protestant Episcopal Church in this country by the General Convention of the church. In his official capacity Dr. Hawks had access to the papers of the deceased bishops of the Church, and in the journal or diary of Bishop White, of Pennsylvania, he found the following bit of curious private history, which he imparted to a well known resident of that city: The good bishop, while on a visitation, not long after the close of the Revolutionary war, stopped at a tavern in a remote country parish, and on retiring for the night soon fell asleep. About midnight he was awakened by a loud and excited conversation in the next room, which was separated from his by a thin board partition. Not wishing to overhear a private conversation the bishop coughed to inform his neighbors of his presence. The voices sunk into a whisper, but soon broke out again under violent excitement. The bishop coughed again, but was obliged to listen to a family quarrel, the cause and substance of which was in effect as follows: The parties in dispute were father and son and both were large real estate holders. It appeared that on the breaking out of the revolutionary war, the two had deeded each to the other all the property standing in his name, with the understanding that the deeds were to be surrendered at the close of the war. The son was to go to England as a royalist, the father to remain and support the popular cause, in this way each hoping to escape loss.

The war had now been closed for some time. The son had returned from England where he had received a royal grant of land for his loyalty, and had met his father by appointment to demand the restitution of the property as agreed. The father, who was a prudent man, concluded to keep the property, and hence the quarrel. The next morning Bishop White asked the landlord of the hotel the names of the two gentlemen and was informed that they were *Benjamin Franklin and his son!*

Banquet by the Franco-Austrian Union in Paris.

The Coming Parliamentary Battle in France.

FRANCE.

THE COMING PARLIAMENTARY BATTLE.

PARIS, November 6.—In view of the approaching sturuggle in the Assembly over the proposed change in the system of voting, persons in position to know the relative strength of parties and influences being brought to bear on the various groups into which they are subdivided, have been calculating the probable votes for and against the Government. The conclusion arrived at, after a careful analysis of opposing forces is that the French Scrutin d'Arrondissement, or voting by district, will command a majority. As the Scrutin de Liste, or voting by departments, which now prevails, is strenuously supported by the Republicans, the ministry is likely to have a triumph in the coming parliamentary battle.

FRANCO-AMERICAN UNION BANQUET.

The members of the Franco-American Union in Paris gave a grand banquet at the Hotel du Louvre this evening. Two hundred and fifty guests sat down to the table, and M. de Lateoulaye, a distinguished jurisconsult and member of the Assembly, presided. Among the distinguished persons present were M. M. Wallon, Minister of Public Instruction; Leon Say, Minister of Finance; Henri Martin, Oscar Lafayette, M. Bartholdi, the Marquis de Rochambeau, General D'Absac, the Count D'Harcourt, who represented Marshal MacMahon, M. M. Leon and Renault, the managers of Nancy and Strasburg, General Sickles, Col. Iorney, Ministers Washburn and Schenck, the Count de Boiullet, Admiral Pathian Canbert, Alexandre Dumas, Emile De Girardin, M. Offenbach, M. Carnot Arsene Houssaye, Jules Simon, M. Kern, the Swiss Minister, and a host of deputies, journalists and prominent American and French citizens.

The first toast which was proposed by Henri Martim was, "The President of the United States—the man who worthily occupies the post of the Chief Magistrate of America." Minister Washburn responded in a lengthy speech, in which he traced the long and cordial friendship existing between France and America. He concluded by proposing the health of "Marshal MacMahon President of the French Republic — a brave soldier and an honest man, who in his civil career has shown himself the best and most successful statesmanship, that which is based upon honor, integrity and unswerving devotion to the public welfare." Mr. Washburne promised the hearty co-operation of America in the project started by French citizens of erecting a monument in New York Harbor in commemoration of the hundredth anniversary of the Independence of the United States.

M. Laboulaye, in a lengthy speech, retraced the history of Franklin and Lafayette, and said that on the next fourth of July America would seal a fresh alliance with France. He concluded by proposing the toast "The Eternal Friendship of France and America." Col. Forney followed in an eloquent speech, after which the company separated. The decorations were magnificent and the greatest enthusiasm was manifested throughout.

CHRISTIAN MASSACRE THREATENED.

BRUSSELS, November 6.—*Le Nord* publishes the following under reserve:

"RAGUSA, November 5.—The greatest exasperation is manifested by the Musselmans of Herzegovina towards the Christians Secret meetings are being held in the mosques, at which preparations are making for a general massacre of Christians at Mostar, Bonsa, and other localities. These details are unknown to Server Pasha."

DENIAL.

CONSTANTINOPLE, November 7.—The truth of the dispatch from Raguso, published in the *Le Nord*, of Brussels, yesterday, representing that the Mussulmans in Herzegovina were exasperated against and preparing to massacre the Christians, is officially denied.

GREAT BRITAIN.

POLITICAL.

LONDON, November 6.—Lieut. Col. John Ireland Blackburn, Conservative, has been elected a member of Parliament for Southwest Lancashire, to fill the vacancy caused by the death of Mr. Charles Turner. Col. Blackburn was returned without opposition, although the Liberals at one time contemplated bringing forward Col. Molynaux, brother of the Earl of Sefton, to contest the seat.

GERMANY.

Pennsylvania.

NORTHAMPTON COUNTY—OFFICIAL.

PHILADELPHIA, November 6. — The Democratic majority in the county is 2,894.

New York.

ALBANY, November 5.—Returns received give a majority for Bigelow of 16,798, with a prospect of a further increase.

Wisconsin.

MILWAUKEE, November 5.—It now appears that Ludington, Republican, has 1,500 majority. Governor Kuchen, Democrat, is undoubtedly elected Treasurer. The Republicans have five majority in the Senate, and six in the Assembly.

Minnesota.

ST. PAUL, November 5.—The Republicans claim 10,000 to 12,000 majority for all the State candidates except Treasurer, who will probably have from 4,000 to 5,000. The Legislative returns are as yet meagre. The Democrats appear to have gained, so far, four or five members.

Kansas.

TOPEKA, November 6.—The *Commonwealth* has returns from ninety-six representative districts, and six to hear from. Of these seventy-nine are Republican, six Democratic and eleven Reformers.

Whisky Frauds in Chicago.

CHICAGO, November 6.—The Grand Jury yesterday returned a large number of indictments against whisky distillers, gaugers and rectifiers of this city, for alleged violation of revenue laws. Some of these parties are already under bond for other offences. A number of those indicted appeared in Court this morning and gave bonds for their appearance to answer the charges. The amounts of their bonds ranged from $5,000 to $15,000. It is believed that from fifty to seventy-five indictments ware found, but neither the number nor the names of the persons are known.

Prairie Fires.

OMAHA, November 6.—An immense prairie fire has been ranging since October 13th in the neighborhood of Capt. Pollock's camp, at the foot of the hills north of Fort Laramie. He reports that it commenced near the head of Beaver Creek and burned entirely around his camp, depriving him of all chance to cut hay or graze. Both sides of the road clear into Fort Laramie are burned off, as is the road to Red Cloud as far as Buffalo Gap. It is still burning, going in the direction of Spring Castle.

Civil vs. Military Law.

BROWNSVILLE, TEXAS, November 6.—Judge Merrill delivered an elaborate opinion in the United States Circuit Court to-day, deciding that the cases of the colored soldiers of Ringgold Barracks indicted for murder, could not be transferred to the Federal Court under the Civil Rights act, as there was nothing to show that they could not receive a fair trial in the State Courts under the laws of Texas, which contain no discrimination in regard to the race or color of prisoners, witnesses or jurors.

The Guibord Burial.

MONTREAL, November 6.—The police have been furnished with one hundred breech loading rifles to be used if necessary at the Guibord burial. The leading counsel, mentioned in the late interview between Mr. Doutre and the Mayor of Montreal, are Messrs. Abbatt, Ritchie, Devlin and Roy. Their openion on the case will shortly be given.

AMUSEMENTS.

Pittsburgh Opera House.

To-night Barry Sullivan commences his engagement at the Opera House, opening in *Richilieu.* This is his favorite character, although his playing of *Hamlet* against Davenport in New York has credited the impression that the latter is his specialty. To-morrow evening he plays Richard III, and on Wednesday evening *Hamlet.*

TIMBLE'S VARIETIES.

Trimble's still maintains its reputation as being among the best variety theatres in the western country. This week the Boisset Gymnastic Company will be the special attraction, along with numerous other.

THE TITIENS CONCERT.

Mlle. Teresa Titiens will make her first appearance in Pittsburgh at Library Hall on the evenings of Thursday and Friday, November 18th and 19t. She will be ably supported by Mme. Arabella Goddard, England's first pianist, Sig. Orlandida, Mr. Wilkie Moni Sacert.

MR. COULDOCH is a member of the dramatic company that travels with Mr. Edwin Adams.

If Your Throat Feels Sore or Uncomfortable

use promptly Dr. Jane's Expectorant. It will relieve the air-passage of all phlegm or mucous, allay inflammation, and so give the affected parts a chance to heal. No safer remedy can be had for all Coughs and Colds, or any complaint of the Throat or Lungs, and if taken in time a short trial will prove its efficacy.

GOLD closed in New York Saturday at 115⅛.

THE official returns have finally determined that the hopes entertained by our friends, the Democracy, can be postponed for a season. As it now has the leisure, we invite the *Post* to give, in its graphic style, a full *resumé* of the secret history of the nomination of the Democratic county ticket. Will it not oblige us, just for old friendship's sake?

IT is proposed, we understand, at the next session of the Legislature, to have the powers and abuses of the aldermanic office thoroughly inspected and reformed. We have had our attention recently called to the fact that all descriptions of blackmailing cases are roped in, by Aldermen who run their offices for the fees to be obtained, and decisions uniformly given against defendants, as means of making costs. Justice and propriety are put aside, and the question of gain is uppermost. We hope this question will receive the sifting it deserves.

OFFICIAL returns have now been received from about fifty counties in the State, showing the vote cast at the election last Tuesday. These returns indicate that HARTRANFT's majority will be between eleven and twelve thousand in the State—the remaining counties not officially heard from being estimated. In Allegheny county the official returns show Republican majorities on the county ticket as follows: Governor, 5,461; State Treasurer, 4,979; Sheriff, 1,351; County Treasurer, 4,519; Recorder, 5,992; Register, 4,577; Clerk of Courts, 6,310; Controller, 4,979; Commissioners—McClelland, 4,768; Beckert, 2,362; Director of Poor, 1,674.

THE almost total failure of the wheat crop in Russia, will exert a great influence on the price of wheat in Europe, and on the demand that must be made on the supply in this country. Hitherto, the Black Sea region of Russia has been a severe competitor against us, in supplying even the English wheat markets. Now, in place of being a seller, Russia must, if accounts be reliable, be a purchaser. Still, the people of that country are sufficiently accustomed to a very modest diet not to be under the necessity of purchasing expensive breadstuffs. Hence the Russian demand for our wheat will not be great; the material bearing of the failure of the Russian harvest will be in its effect on English purchases. If all is true that is reported, the demand on our supply will be very large.

THE *Leader* manifests much anxiety to have a portion of the papers in the case of the Exposition Executive Committee published. A brief statement of the exact situation will show the absurdity of its demand. The Executive Committee, as such, has been, and is, harmonious. Four of its members presented to the Board charges against one of its number,—not on personal, but purely on business and officia grounds. The Board received those charges, referred them to a committee, whose report, as amended, was adopted. This involved the appointment of a committee,—Messrs. Johnston, Breed, and Vannote,—to select a person to do three things: 1. To analyze all the accounts and business of the Board and Executive Committee. 2. To examine complicated and doubtful bills, of which there are many which the Executive Committee have not time to act upon,—and yet that are constantly pressed for payment. 3. To take testimony on the charges presented. This is the exact *status* of the affair, and furnishes the reason for withholding all papers for the present.

OUR amiable and intelligent Fifth avenue cotemporary is saddened that we presume to glance at facts that have a bearing on the next Presidential struggle; and because we mention the circumstance that there is a sentiment favorable to the renomination of President GRANT, it concludes, with that infinite sagacity, derived from the reading of DICKENS' novels, that we have gone back to Third Termism. This is about equal to the wise conclusion, reached by the same journal, that our State and county election turned in favor of hard money, and was against the agitation of the school question. All this in the face of the fact that all the declarations on the subject, on the part of the Republican party, were *not* for hard money by means of forced resumption. As its dilletanti editor was delicately inspecting the merits of a pair of modern eye glasses, used to give a fine literary air to his countenance, when MR. UPDEGRAFF was so loudly cheered for his utterances on the school question, we can pardon the ignorance displayed as to this fact. We have only to say that the obtuseness of the *Dispatch* editor does not argue the absence of a clearly defined popular sentiment as to GRANT's renomination.

THE official count shows the temperance vote in this county to have fallen off 1,000 as compared with last year. The lesson contained in this is one that should be heeded. It is, that when other great interests are at stake, special questions are put aside. It is not necessary to argue the right or wrong of this,—it is one of those fundamental truths, that will exist year after year, for decades to come. Already the belief exists that the school question will tower above all others next year, and possibly for years to come. What then,—shall the temperance reform be abandoned? Not at all. But let it be remanded to its true sphere,—that of a moral reform only incidentally related to politics. To the declaration that progress cannot be made in this way, we oppose the fact that public sentiment on this subject has been toned up very greatly, within ten years. Gross drunkenness is far less common, and not at all popular; and even moderate drinking seriously affects the social standing of those who indulge, at the present time. There is a clearly defined, and very positive sentiment against even tippling,—a condition of affairs that did not exist, a score of years ago. And this growth of social sentiment has been separate from, and irrespective of, all political movements whatever. We urge this now the more earnestly because we believe, as we stated during the canvass, that the Republican party is ever ready to enact into law, any clearly defined, and satisfactory public sentiment. Let the public interest in the subject of temperance be concentrated on any one line of policy, which can be framed into a law, fair, impartial and unbigoted, and there is a general readiness on the part of the Republican party to respond to it. Of course, we do not pretend to deny that for a time there will be a natural tendency, even in the Republican party, to resent or at least remember the bad treatment it received from the political temperance party. It was a cruel movement, even as regarded the cause of temperance, for its leaders to assail the Republican party, the year succeeding the passage of the Local Option law. We suppose the judgment of the temperance leaders was overbalanced by the fact that the vote in favor of Local Option was large. That vote merely represented the drift of popular sentiment on that particular subject, when the question was separated from politics. Hence it was a mistake to again merge it into politics. Can we not now have a brief spell of wisdom?

THE last week of the Exposition is upon us, with cheapened rates, multiplied attractions, and a continuance of popular interest. The supply of articles of interest has steadily increased, until the immense building is packed to its full capacity. Much was said of the reduction of rates, but the management were simply driven to maintain prices. Had our business men come cheerfully forward with even one hundred dollars each, the price of a life membership, we could have had cheap rates, and, in all respects, a popular Exposition. But the sum total actually collected was less than $10,000,—while the building alone cost over $62,000, to say nothing of the thousand expenses attendant upon preparing it for the Exposition. The gross cost of the Exposition to the management will be little, if any, short of $100,000,—against which Pittsburgh contributed less than $10,000. Necessarily, the Exposition had to be conducted with reference to financial results. Yet there has been, in the management, a strong feeling of sympathy toward our workmen who felt that the price of admission was high. To meet the views of all such, the price has been made to accord with the popular demand, and it is understood that several of our mills will close, at least for one day, in order that their men may visit the Exposition. Could it be done, it would be good policy to select different days for different mills to close, in order that there may not be too large a crowd at one time. Very naturally, our workmen will be specially interested in the machinery department. Of course, all cannot be accommodated at once, and hence the suggestion for different days. It has been intimated that the Exposition will be continued two weeks. It is but proper to say that exhibitors will object to this, and their wishes must be respected. It is, therefore, not safe to assume that it will continue longer than the present week, as, the probabilities are, it will close Saturday night. It has been suggested that our Chamber of Commerce take to itself the honor of offering the final premium for the best floral display. It will be greatly to its credit, if it shall do it. All these are facts and suggestions, the most important of which is that the Exposition may be expected to close on Saturday night.

THE EASTERN IMBROGLIO.

It proves that the intimation that England would seek to control and sentinel the Suez canal, in order that she might rapidly transport troops to India, in the event of trouble, is what the talk of occupying Egypt means. This project has reference to the danger of her India Possessions, arising from the extension of Russian military posts to within striking distance of the Peshawar border of her Indian territory. Of course the attempt to control the canal, considered as a diplomatic, or military movement, will deeply interest Russia, which has reached the Indian border, after too much effort, to peacefully give up the advantage she possesses. For years she has cautiously extended her line of military posts into Central Asia, subordinating the fanatical local powers to her control, until, by the conquest of Khiva, the way was practically open for a march on India. All this was the outgrowth of several events, which have taken place, and of a policy growing out of those events.

The struggle between Russia and Turkey for the possession of the sacred sepulchre, at Jerusalem, which led to what is known as the Crimean war, is the dating point to the recent phases of complications. Practically this contest involved the control of Syria, if not of Egypt. The English and French Governments, signatories to the Treaty of Paris, were involved in maintaining what was called the "balance of power" in Europe, the Turkish Empire being the very pivot of this arrangement. The leading purpose of the Treaty of Paris was to keep Turkey, in itself a feeble power, in position, that it might hold Constantinople, the Bosphorous, and thus repress the Westward tendencies of the Russian Empire. Hence, when the very existence of the Turkish Empire was threatened, England and France joined in her defence, and attacking Russia at Sebastopol, the war was really confined to that point and ended there. Since then, Russia has proceeded with more circumspection, but with none the less tenacity of purpose. France was crushed by Germany—so that she is no longer feared. Step by step, Russian influence was extended across the mighty deserts of Central Asia, until at last an army of over 40,000 men is within striking distance of British India. Immediately this is accomplished, disturbances break out in the provinces of the Turkish Empire. Servia, Montenegro, and Herzegovina revolt, and even Bosnia is restive. The strain put upon Turkey to suppress these uprisings breaks her financial strength, and drives her to the first step toward repudiation of her foreign debt. That all this occurred irrespective of Russia will not be believed, when it is known that the provinces named are under her "protection."

The report which follows, that England wishes to control the Suez canal, shows that she is very fearful of existing complications. Should Russia choose to assail Turkey now, and England were to interfere, it would be responded to by a blow at her Indian Empire; and as things now are, Russia could inflict severe losses on her, before she would be in position to effectually defend herself. The native troops in that country do not possess the unreserved confidence of the English Government, and at the best could not cope with the disciplined forces of Russia. Hence the importance to England of a short naval route to India; and the fact that she is moving to avail herself of it, points to the nature of the complications that are likely to arise.

Despite the fact that Russia is recognized as a settled and implacable enemy of Turkey, she has yet succeeded in wielding great diplomatic influence at the Sublime Porte. She has had, at Constantinople, for years, the most astute and accomplished diplomatist she possesses. He has had an unstinted supply of means, and has been given every advantage his government could afford, to enable him to reach and control the policy of the Sultan, and to gain the secrets of the administration. Hence, in all merely diplomatic contests, as between Russia and England and France, at the Sublime Porte, the first has been the successful power. We cannot, of course, speak of this fresh effort to gain control of the Suez canal. England has many advantages, in this. She owns a large amount of the stock; her vessels pass through the canal in larger numbers than those of any other power, and hence afford to the canal its chief revenues. Russia has but little foreign maritime trade, and cannot offer a good reason for wishing to control the canal. She can only resist England, without seeking to substitute herself in England's place. Thus, resistance only will be her policy. She may demand that the canal be international, for peaceful purposes only; or that no one power be allowed to use the canal, and that no power shall transport troops through it for warlike purposes, without the consent of all the great Continental powers. Whatever the shape this controversy may take, it carries with it vast interests, and great problems. If Russia can shut England out from a direct route to India, the fact becomes apparent that the culmination of the latter's power in India has been reached. There is, as it stands, a heavy game on the chess board of European politics.

FRANCE, which at one time was reputed incapable of making steel, has made it at the following rates for the last twelve years: In 1863, 1,800 tons; 1864, 6,700; 1865, 9,700; 1866, 10,800; 1867, 19,900; 1868, 42,600; 1869, 52,400; 1870, 90,000; 1871, 110,000; 1872, 138,500; 1873, 167,000; 1874, 217,000 tons.

IT is not generally known that the son recently born to the Princess Imperial of Brazil, Comtesse d'Eu, was delivered by the Cæsarian operation. The delivery was very painful, and the Princess' life was for a long time despaired of. The child is heir to the throne of Brazil. May he not prove another Cæsar!

REV. H. D. MOORE, of Cincinnati, steps forward and says that "Bolly Lewis," the notorious gambler, did not pass around the plate in his church. He adds that "Bolly" is a constant and attentive member of his congregation, and a better man than some of those who do pass around the plate. But this seems to be a rather Lewis view of the question.

STANLEY, the explorer, was madly in love with an actress named Annie Ward, now deceased, when he lived in Omaha. This is given on the authority of the busy *Bee* of that town, which sets forth the fact that Stanley once offered a certain old inhabitant $50 if he would effect an arrangement by which he could marry the object of his younger affections.

PRESIDENT GILMAN, of the Johns Hopkins University of Baltimore, returned last Monday from Europe, where he has been for several months gathering information concerning the European universities. In conversation he said that while no definite plan had been adopted, it was designed to make the Baltimore University in a measure unlike any of its predecessors in America, and that its several departments would be presided over by men of eminent intellectual attainments.

EX-GOVERNOR VANCE, of North Carolina, in passing through Nashville last Wednesday, called upon Mrs. Polk. During the conversation, she asked the ex-Governor where he at present resided in North Carolina. "Charlotte," was the response. "Were you born in Mecklenburg county?" "No, madam; in a county which you have doubtless seldom heard mentioned—the county of Buncombe." "Ah, sir, that then probably accounts for your buncombe speeches," she laughingly responded.

ANTOINETTE, Queen Consort to King Leopold of Holland, whose serious illness was announced by the telegraph, was born on the 17th of April, 1838. She is the daughter of Prince Edward of Saxe-Altenburg, and her full name is Antoinette Charlotte Maria Josephine Caroline Frida. King Leopold is about seven years older than his wife. They were married in April, 1854, and have six children—four sons and two daughters, the eldest of whom, Prince Leopold Frederic Francois, is now twenty years of age.

A MODEL for the statue of William Penn has been adopted by the Historical Society of Philadelphia. It represents Penn in full vigor of manhood, with proper physical proportions. The face is from an original painting presented to the Society by Granville Penn, the grandson of William Penn, and the figure corresponds with Dixon's description. The age is about 38 years, and the costume that in vogue during the last year of the reign of Charles II., the date of Penn's first visit to this country. The figure is in a speaking attitude, the left hand holding the original charter of the city of Philadelphia.

EX-PREMIER GLADSTONE has written a letter to Pere Hyacinth, approving his recent work on "L'Eglise Catholique en Suisse," and saying that, as there is no excuse for the excesses of Ultramontanism, so there is hardly more for those of the opposite school of Erastianism—in other words, for the ultra-Liberal Catholics. Mr. Gladstone expresses himself in accord with the opinion expressed by Pere Hyacinth, that the two parties in the Church are unconsciously playing into each other's hands by striving to sweep away all moderate opinions in order to clear the ground for their own final duel, in which each makes sure of being the victor.

COMMODORE JOHN J. YOUNG, United States Navy, died at his residence, in Brooklyn, on Thursday. The deceased was one of the oldest officers in the United States navy, having but one senior living, Admiral Stringham. He entered the navy from New York, on January 1, 1812, at the age of eighteen, and served under Commodore Perry on the lakes. He subsequently saw active service on board the Hornet until 1829, when he wounded by the recoil of a gun while engaged in a piratical chase. He lost both limbs, and was thereby incapacitated from active sea service, but was until recently on shore duty in different portions of the country. The remains were taken to Baltimore for interment.

MR. ALFRED TENNYSON sent the following reply to an invitation to attend the great Balaklava banquet in London:] "I cannot attend your banquet, but I enclose £5 to defray some of its expenses, or to be distributed, as you think fit, among the most intelligent survivors of that glorious charge. A blunder it may have been, but one for which England should be grateful, having learned thereby that her soldiers are the bravest and most obedient under the sun. I will drink a cup of wine on the 25th to the health and long life of all your fine fellows, and, thanking yourself and your comrades heartily for the cordial invitation sent me, I pray you all to believe me, now and ever, your admiring fellow countryman. A. TENNYSON."

MRS. ELIZABETH CADY STANTON has lectured in Chicago on Greeley, Seward and Weed. She estimated Weed as the greatest of American politicians, Seward as the greatest diplomat, and Greeley as the greatest editor. She incidentally told this story: "I once attended a very fashionable party at John C. Fremont's, where Greeley invited me to take his arm to dinner. I said, 'Wait, Mr. Greeley, till after the guests are out. I want to say something to you.' And when the guests were out of the room, I set to work to tie his cravat, arrange his collar, comb his hair, and even to tie his shoe, saying, 'Mr. Greeley, why is it that you, such a handsome man, are so careless about your dress?' His reply was, 'Handsome is that handsome does.'"

THE last words of George Speer, hung at Fayetteville, Ga., for rape, were: "I am as innocent as an angel." This interference being repressed, the hanging went on, and Speer was launched into eternity without further interruption.

RESOLUTIONS were adopted by the Trades Union Congress, held at Glasgow the latter part of last month, approving the principles of co-operation and international arbitration; requesting the government to interfere to prevent the over sizing of cotton cloth, as injurious to the health of both workers and wearers; urging that only certified engineers be permitted to take charge of steam boilers; and desiring a reform of the patent laws, that poor inventors may no longer be at the mercy of capitalists.

THE recent destruction of Virginia City by fire has brought out a discussion on the great value of trees, planted along the public streets, as a sure protection from disastrous conflagrations. It is argued that they serve to prevent the passage of burning debris through the air, the embers being caught in the upper branches, and falling harmlessly to the ground. It is asserted that destructive fires have frequently been averted in Sacramento by the belts of trees that extend along the public thoroughfares of that city.

IF Pius IX. were a temporal monarch, no doubt he would govern with remarkable astuteness. If a temporal monarch desired to establish a great power in any country not under his royal rule, he could do so by appointing a Viceroy, nominally not interfering with the actual and legitimate Government. Pope Pius has exactly done this in England, Ireland, the United States, and Spain, by the creation of Cardinals Manning, Cullen, McCloskey, and Simeoni, each of whom does exercise a strong governing power over large portions of the inhabitants in those countries.

WHAT would Isaac Walton say to "a scientific Frenchman's" new way of taking fish? It is rather rough on the finny fellows, but doubtless it is ingenious. Platinum wire is placed in a green bottle and ignited by electricity. Seeing this remarkable illumination, the silly fish swarm around the bottle like so many boon companions, when the scientific Frenchman scoops them out in a net. This may be an improvement upon the elegant simplicity of rod, line, and fly; but it is'nt gentle, as fishing should be, and it is taking rather a mean advantage of the fishes' ignorance of chemistry.

WE suppose that a business man is rather proud when he puts up a fresh, newly-gilt bearing and burnished sign, which he believes will persuade buyers to stop and at least look at his goods. Such a sign had a dealer in Burlington, Iowa, elevated with a feeling of "in hoc signo vinces" in his heart. Going out for the tenth time to look at it, what were his emotions when he observed that some one, thoughtless, mischievous, or envious, had made a centre shot at that sign with an old, large and ripe tomato? In the frenzy of the discovery, he offered a reward of $5 for the apprehension of the tomato-slinger, dead or alive; but lads who use the vegetable in that way are not easily caught.

"THE LAND OF THE FREE."

America and the European Nations.

Mr. Horace White, formerly of the Chicago *Tribune*, writing to that paper from Paris, says:—I must remark to the class of persons for whom this letter is particularly designed that they are mistaken in supposing that America is, in any special sense, "the land of the free and the home of the brave." I presume that nobody really doubts the bravery of the English, French, Germans, &c., but a great many, probably most of our people, are accustomed to think of them as living in a state of semi-servitude to their rulers. I have previously given the result of my observations on the English system of Government. I have had some opportunities to notice the systems of France, Italy, Switzerland, Germany, Belgium and Holland; and I am unable to see in what way we have advantages over them in personal freedom entitling us to call ourselves par excellence the land of liberty, except such as have been given to us by the breadth of ocean which enables us to dispense with a standing army, and the length of land which prevents us from unduly crowding each other. No; the time has gone by when we could claim to be, in a peculiar sense, the land of freedom. We must achieve our distinction among nations in some other way hereafter. What was true at the foundation of our Government and fifty years later is true no longer. A great change has come over old Europe in the last half century, and especially in the last quarter. The revolutions of 1848, though soon suppressed, have none the less accomplished their work. Hungary has become the chief stone of the corner in the Austrian Empire with a free Parliament. Germany and Italy have accomplished their unity, and are governed as to nine things out of ten by the popular will. The temporal power of the Pope has melted away, and Garibaldi enjoys a green old age within sight of the hill where he made his heroic resistance to the soldiers of the Second French Republic. France has commenced her third experiment with ideas so much improved that the republic grows stronger rather than weaker with the lapse of time. In the minor European States the reigning families are little more than the leaders of society, and not one of them except the Sultan and the Czar can increase his own salary to the amount of a pound sterling without the sanction of the legislative body. I judge that the President of the United States exercises more arbitrary personal power than any sovereign in Europe, except, possibly, the Czar of Russia would venture to assume.

[It seems to us our claim would be more just at present than it was years ago, when we had millions of people in slavery.]

A CENTENNIAL SHRINE.

The Bodies of Washington and Lincoln in Fairmont Park.

A Pittsburgh correspondent of the Philadelphia *Press* offers the following suggestion for the consideration of the Centennial Commissioners: "I wish to ask if it would not be an excellent idea to have the remains of George Washington taken to the great Centennial Celebration which will be in force in Philadelphia next year, in order that all who visit the Centennial may have an opportunity of seeing them? What a great pleasure and satisfaction it would be to every one to behold the real, genuine, honest face of the immortal Washington. Every one in the United States since their childhood days have wished for such a great privilege, and I think it would be the greatest attraction the Centennial Commissioners could offer, as hundreds of thousands would go to the Centennial who would otherwise remain at home were this attraction not offered. The remains are perfect in preservation, and could be removed and returned without the slightest injury. For my part I cannot think of a greater honor that could be bestowed upon the memory of Washington than to have his body with us in our celebration of the Centennial. I know his spirit will be there, providing such things are permitted from above. And there is nothing mercenary or sacrilegious in having his body with us, beautiful as he is in death. A suitable building could be erected for the purpose, and in order to prevent the same parties from entering it too often a contribution could be taken from each one who enters for the purpose of completing the Washington Monument, and I venture to say double the amount necessary would be contributed, and Washington could then pay for his own monument, as the people of the United States appear to be too poor to do it for him. It was at the tomb of Lincoln which I visited recently, that I thought of all this, and I think it would be a good idea to place Lincoln's body by the side of Washington at the Centennial, and then every one could behold the two greatest benefactors of the United States. I offer this for the respectful consideration of the Centennial Commissioners, the citizens of Philadelphia, and the United States, and hope it will meet universal approval, and anything I could do to assist in carrying out the project I will cheerfully do."

Settling the School Question.

The Roman Catholic Bishop of Cleveland has proposed a plan for the settlement of the school question in that city. It is that the Catholics build their own schools, which, during school hours, shall be under the jurisdiction of the Board of Education; that no religious exercises of any sort be held during school; that the teachers shall be Roman Catholics; that their salaries shall be paid by the school board; and that they (the teachers) shall be allowed to hold religious exercises after or before school hours. This would be putting the school on an exactly equal footing with the Catholic schools already in operation, except that the Catholic management would be eased of the burden of paying the salaries of the teachers. Then, as now, the school hours would reach from 8 in the morning until 5 in the afternoon, about three hours of this time being given to papal gymnastics and Latin pattering, as now. The proposition is altogether too thin. It is somewhat remarkable, the reluctance of these priests to take a hint. In every place where the question has been brought forward the American people have decidedly and promptly expressed their intention to see that the schools were not touched; but the Church bangs away at it with just as deliberate a stroke as though the work was a holy one and approved of men and angels.

OIL SHIPMENTS.

866,731 Barrels of Petroleum from the Oil Regions.

During October there was an important decrease in the shipments from the oil regions as compared with those for the previous month. The quantity moved in October was, however, fair, and the stock in the oil region was reduced about 100,000 barrels. The following was the quantity of crude or its equivalent of forty-two gallons sent to the principal points:

	Barrels.
To New York, about	290,515
To Philadelphia, about	120,970
To Pittsburgh, about	133,484
To Cleveland, about	277,873
To Baltimore about	17,570
To Boston and other points, about	76,319

The following were the shipments by each route during October:

	Barrels.
By A. V. R. R. to Pittsburgh	83,485
By Conduit pipe line to Pittsburgh	50,000
By D. A. V. & P. R. R. to all points	103,311
By A. & G. W. Ry. to all points	76,070
By L. S. & M. S. R. R. and from Harrisville to all points	240,883
By O. C. & A. R. Ry., W. P. R. R., & E. R. R. and A. V. R. R. to all other points than Pittsburgh	313,983
Total barrels	866,831
Total in September	1,108,199
Total in August	891,927
Total in July	883,303
Total in June	692,940
Total in May	633,474
Total in April	736,423
Total in March	714,205
Total in February	361,000
Total in January	441,778
Total since January 1st	7,279,980

In the shipments for October there is included (in the form of crude equivalent) about 87,000 barrels refined. Of this quantity about 42,000 barrels were shipped to New York, 14,000 to Philadelphia, 5,000 to Baltimore and the balance to Boston and to local points in this and the adjoining States.

The following were the stocks of crude and refined at the seaboard November 1st, as ascertained by our special agent:

	Crude.	*Refined.*
At New York, barrels	76,000	70,000
At Philadelphia, barrels	107,000	36,000
At Baltimore, barrels	7,000	13,000
At Boston, (est'ed) barrels	4,000	6,000
Total barrels	193,000	126,000

The above stocks include only those in warehouses or yards.—*Oil City Derrick.*

A BIT OF HISTORY.

The Cornwall Hills in Lebanon County—How They Came Into the Possession of Their Present Owners.

A Lebanon county paper says:—The history of the Cornwall Hills and how it came into the possession of their present owners, is interesting. It is said by one who evidently is well informed, that a man by the name of Moyer came from Switzerland to Lancaster county, Pa., who had a grown up daughter. Henry Smith was in love with Moyer's daughter, and when Moyer started for this country, Smith asked him to leave his daughter, which was refused. Christian Smith and his brother, however, followed them to America, and here Henry married his daughter. These two Smiths having some money, started for Lebanon county. They cut the first road through the hill from Koch's to Cornwall. Henry Smith then bought 800 acres of land from the Penns, paying $1 per acre. When the property was surveyed and they came to what is called the Big Mine Hill, they wanted to measure that in too. This was refused by Smith, saying that it would never be worth anything for farming purposes to him. They then offered the whole hill for $15, which was also refused. Afterwards, however, Peter Grub, from England, came and bought the big hill from the Penns, and the other two from Mr. Allen. These 800 acres, which the Smiths owned, were used for farm purposes. He built a barn where William Boyd now lives. This part of the property was then bought by William Coleman. Another farm was then located where the Cornwall anthracite furnace now stands; this was bought by Mr. Randall, guardian of the heirs of Burd Coleman. And Robert Coleman, uncle of young Robert, now at Cornwall, bought David Smith's, Peter Smith's and Wm. Smith's farms. Thus the 800 acres fell into the hands of the Colemans, and although it was then sold to the Smiths for $800, its value at the present would be hard to guess.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, November 8, 1875.

The few days that have elapsed since the elections have given an opportunity to reach a tolerably accurate notion of their effect on the business and finances of the country. Of the elections held, that in this State was probably the most significant, and the result is seen in an improved financial *status* all round. Gold has steadily depreciated,—or, as the hard money papers put it, greenbacks have advanced every day since the election. This can be attributed to nothing else than the success of the Republican party, whatever views we may have of the effect of the elections on the teachings of the party. There has also been marked business improvement, which has been very manifest and satisfactory. Our banks and business men see it, and there is a very confident feeling developing, not merely here, but in all parts of the country.

The extreme stringency in California continues, and a San Francisco dispatch of the 3d says that many damaging rumors about local capitalists are in circulation, creating grave apprehensions, the sixty and ninety days stated as the time in which the principal mines will resume hoisting being received with many grains of allowance. All that men and money can accomplish will unquestionably be done to repair the damage; but impossibilities cannot be overcome, and the immediate future is full of deep concern to all the great industries of this coast. Owing to the Virginia City fire the bullion supply is partially cut off, and a change cannot be counted upon for several months. The savings banks are not loaning money to any extent.

The Bank of California is said to be shaping its affairs towards reorganization at the beginning of the year. The bank business will then be in such a position that the new organization can take the old bank, with its available assets, the good will of business, and all its avenues of commerce and correspondence, at their proper value, and begin business on an entirely new basis.

Says the Chicago *Inter-Ocean:* The proposed advance in freights by the railroads to sixty cents per 100 pounds (thirty-six cents per bushel for wheat) as soon as navigation closes excites considerable feeling and comment in business circles. The average freight on wheat to New York by the lakes and canal during the latter part of the season has been about fifteen cents per bushel. If it is to be increased to thirty-six cents as soon as navigation closes it will make a great difference in the volume of wheat shipped. Everybody expects to pay higher freights by rail than by vessel, but in past Winters the railroads have been content to charge forty cents per 100 pounds (twenty-four cents per bushel for wheat) from Chicago to New York. It is probably true that the railroads have not made much money in carrying grain at that rate, but they could make money at fifty cents per 100 pounds, and there is no excuse for their charging any more. Sixty cents per 100 pounds would be an advance of 50 per cent. on the rate of last Winter, and would be simply extortionate. If the threatened advance in freight should be made it will probably result in a smaller movement of wheat and corn this winter than usual, and this may allow the stocks of grain in New York to decrease as to advance prices. Everything has been so much changed in the West in the last two years and there is so much more capital here that the West is abundantly able to carry the great bulk of the wheat crop until next spring, and from the latest accounts of the loss of crops in Russia it is apparent that wheat will bring a better price next spring than now.

Governments closed firm. For railroad bonds this afternoon there was a good demand, the Union Pacific sinking funds advancing to 86, firsts to 103, and Central firsts to 103½. The annual report of the Government directors of the Union Pacific road has been published, and was received with favor by holders of securities. The gross earnings for the fiscal year ending June 30, 1875, were $11,522,021, and the net earnings $6,733,391, an increase in net of $1,576,420. The operating expenses for the same time were 41 56-100 per cent., against 49 67-100 the previous year.

Chicago & Northwestern consolidated coupon gold bonds were in demand and sold at 87a87½. The *Evening Express*, in its weekly review, says the Northwest & St. Paul roads were firm on favorable advices concerning the movement of crops and the consequent increase in earnings. State bonds were quiet and nominal.

The stock market was strong and higher at the opening, the improvement in prices being general. The leading features were Lake Shore, Union Pacific, Northwest, St. Paul, Michigan Central, Pacific Mail and Western Union. At the second call the market was lower, later becoming quiet and steady, and closing a little off in the general list. Lake Shore reacted from 61⅞ to 61⅛. Pacific Mail from 39⅛ to 38⅞, Northwest from 38⅛ to 37⅞, Western Union from 76⅝ to 76⅛, and Michigan Central from 64 to 63⅛. Union Pacific closed at 65⅛, after selling up to 66⅛. Rock Island was firm at 108½, and St. Paul at 35½. Missouri Pacific advanced to 11⅛ and closed at 10⅛.

The transactions on the Stock Exchange aggregated 111,900 shares, of which 46,000 were Erie, 31,000 Lake Shore, 82,000 Northwestern, 30,000 Pacific Mail, 3,200 St. Paul, 18,100 Western Union, 5,300 Union Pacific, and 2,150 Missouri Pacific.

Condition of the Markets at Home and Abroad.

DAILY REPORT OF PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, November 6, 1875.

Trade in general merchandise, while it is not as active as it usually is at this season of the year, is about all that can reasonably be expected, and furthermore, as the fall elections are over, and the agitation of the currency question will not be pressed so strongly, it is expected that not only will business hold it own, but that it will improve. The settlement of the matter of wages, between the iron men and the puddlers, dissipates the apprehensions that were entertained of another "lock-out," which would have had a very depressing effect upon our local traffic. Upon the whole the business outlook is more encouraging, and our merchants generally expect to have a fair winter trade.

APPLES—The market is overstocked and easier, although prices have undergone no change, ranging at $3a4 per barrel for fair to prime.

BEANS—Continue quiet and unchanged; $1,70a1,75 per bushel to the trade, and 10a 15c additional in a jobbing way.

BUTTER—Prime to choice rolls, 26a28c; extra creamery, 29a30c; good to prime solid packed, 20a25ac. There is an increasing demand for choice table Butter, but common and medium continues dull.

CHEESE—Prime Ohio Factory, quoted at 13 1-2a14c for August and 14a14 1-2c for September make. Prime New York Goshen, 15c.

CRANBERRIES—$10a11 per barrel.

EGGS—Fresh, in light stock and steady, 27a28c; pickled, in good supply and dull, at 23a25c.

FLOUR—The general tone of the market is easier, but prices continues quiet and unchanged. Old red winter wheat, $7a7,25; new ditto, $6,25a6,75; old spring wheat, $7a a7,25; new ditto, $6,50a7. Rye Flour, $5,25 a5,50. Buckwheat Flour, 2 1-2a3c per pound.

GROCERIES—Our latest dispatches, both from New York and Baltimore, report Coffee quiet, which means dull, and while importers are holding with great tenacity, the general outlook is against them. The trade generally are beginning to doubt the short-crop reports, which were freely circulated a month or six weeks ago, and under the influence of these reports a sharp advance in the value of the bean was established. Sugars, Molasses and Syrups are quiet and unchanged.

GRAIN—The market for Wheat continues quiet and unchanged at $1,25a1,35 for common to prime new red, and $1,30a1,40 for ditto white; old red, $1,40a1,45. The Oat market has been dull all week, although prices remain unchanged; Pennsylvania and Ohio mixed, 39a40c; ditto white, 41a 42c. Shelled Corn continues dull, as the market is well supplied, and there does not appear so be much inquiry for it: quotable, on track, 64a66c for mixed to prime yellow; Ear Corn is in light stock, but unchanged; 68a70c; new Ear Corn, 47a50c. Rye continues quiet and nominal at 80a85c. Barley is quoted all the way from $1 to $1,25, according to quality and condition—a good deal of the Barley offering is off color.

HAY—There is no change to note in prices; market continues dull. Baled, on track, prairie, $12a14; timothy, $17a18, as to quality.

POTATOES—In good supply, and the market is in buyers favor; quotable at 30a 35c for Peerless and Early Rose, and 35a40 for Peach Blows. Jerseys Sweets, $3a3,25 per barrel.

PROVISIONS—The market for the hog product continues quiet hereabout, as it nearly always is at this season of the year. Stocks, however, are light, and prices are pretty well sustained.

PITTSBURGH LIVE STOCK MARKET

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, NOVEMBER 6, 1875.

CATTLE.

The market, as usual, has been quiet since Thursday, the great proportion of the receipts having been through consignments; and, in addition, there are rarely ever any buyers during the latter part of the week. Trade, however, was very unsatisfactory to the selling interest for good cattle, the supply of which was considerably in excess of the demand, and prices declined from an ⅛ to a ¼ of a cent per pound; good stockers and feeders, as well as light butcher cattle, while they were possibly a little slower than last week, were better than could reasonably be expected under existing circumstances; notwithstanding the attendance of buyers was comparatively light, prices were pretty well sustained. The highest price reported was 6¼c, which was realized for a bunch of very choice beeves, whereas the same grade brought 6½ last week, confirming what has already been stated in regard to the shrinkage in prices for cattle of this particular character.

The demand for the regular eastern markets was unusually light; both Philadelphia and New York buyers, notwithstanding the decline, took hold very sparingly, and this explains the depreciation in the value of good cattle, as it is on these buyers we are dependent to buy our first class cattle, and it is to one or the other of the markets named they must find their way. Several droves of good shipping steers were shipped on in first hands, the owners being unwilling to sell at current rates.

The small attendance of buyers was owing, no doubt, to the elections, which took place on Tuesday, some of them having remained at home to vote. The supply of cattle, contrary to general expectation, was almost as large as that of last week, notwithstanding it was expected, in view of the elections, that the run would be comparatively light.

It is worthy of notice that the best grades of butcher cattle have shrunk in value about one cent per lb. within the past four or five weeks, and while we may be mistaken, the indications just now are that the bottom has not yet been reached. Extra graded steers cannot fairly be quoted above 6a6¼ whereas a few weeks ago the same kind sold readily at 7a7½c.

QUOTATIONS.

Choice Beeves	6,10a6,20
First quality Beeves	5,75a6,00
Second quality Beeves	5,25a5,50
Fair to medium Beeves	4,50a5,00
Stockers and feeders	3,50a5,25
Cows, Bulls and Stags	2,75a4,00
Texas, as per quality	3,25a4,00

HOGS.

The market for this class of stock has stiffened up materially within the past couple of days; prices, as compared with Thursday, have been advanced from 25 to 35 cents per cwt. Yorkers, which on Wednesday and Thursday were selling at $7,40 a7,60, were sold to-day at $7,80a8; and Philadelphia hogs, which up until Friday did command above 8a8¼c, sold to-day at 8¼a 8 1-2c, and at the close there were very few, if any, unsold. The advance may be attributed largely to the cold weather which increased the demand very considerably in the west, especially in Chicago, where some of the packers commenced to buy; it was the competition there between the packers and shippers that caused the advance in that market, and the advance then assisted sellers very materially in putting up prices here. However, the feeling still prevails in well-informed circles that hogs, later in the season, will lower, and this is based on the supposition that growers are holding back their hogs in order to feed their corn, of which the crop is very heavy; late advices from the west report that the crop of hogs will be but little if any behind that of last year.

SHEEP.

The run was the lightest we have had to record for some time, hence, notwithstanding there was nothing in the position of the eastern markets to justify it, prices were advanced 25 cents per cwt. Prime to extra fat sheep, 5a5 1-4c; medium to good, 4a4½c; common, 3a3 1-2c. The general tone of the market was not as firm to-day as it was in the early part of the week, in consequence of the unfavorable reports from New York. Stock Ewes hard to sell at any prices, but good, strong feeding wethers continue in demand, with but few offering.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, November 6, 1875.

WEEKLY REVIEW.

Trade continues quiet, although the general position of the market is regarded as being more favorable in some respects than it was at the date of our last review; prices have improved slightly as compared with the early part of the week, but refiners continue to report the want of a margin for profit, alleging that the raw article is higher relatively than the product. Navigation having been resumed, there has been considerable barge oil received, and while it is being offered from 15 to 20c per barrel less than that delivered by rail, it should be borne in mind that there is no drawback allowed on refined, the crude for the manufacture of which was transported by river, the drawback is 45c per barrel, so that taking this view of the matter, there is nothing gained by buying barge oil. Another matter worthy of notice is that very little oil is being shipped to the seaboard by way of the Connellsville railroad; since the rates are the same by both routes, refiners for the present are giving the Pennsylvania road the preference. Possibly our refiners are doing this by way of retaliating on the B. & O. Co. for entering into a combination with the Penna; however, it is intimated that the oil traffic from this point has been pooled by the two corporations, so that it makes but little difference which gets the business, as the profits are to be equally divided.

The foreign advices continue favorable—we have reports from the continental markets up to the 16th as follows: Quantity of refined in store at Bremen, Antwerp, Hamburg, Rotterdam and Stettin, 666,330 bbls., against 738,047 bbls. the same time last year; quantity afloat, 196,744 barrels; same time last year, 222,855 bbls; quantity loading, 81,000 barrels; same time last year, 84,500 barrels; total visible supply, Oct. 16, 944,047 barrels; same time 1874, 1,045,402 barrels. Quantities of refined taken for consumption from January 1st to October 16th, as compared with same time 1874:

		1875.	1874.
From Bremen	bbls.	680,884	477,933
" Antwerp		493,399	414,084
" Hamburg		122,509	192,283
" Rotterdam		143,920	134,463
" Stettin		135,239	123,288
Total		1,576,005	1,342,056

CRUDE.

The market was quiet to-day, with no quotable change in prices, as compared with yesterday; immediate shipment, $1,62½a1,65; United certificates, $1,33½a 1,35; barge oil, $1,77½a1,80.

REFINED.

Quiet and unchanged; New York delivery, 13⅜; Philadelphia, 13; Baltimore, 12¾; on cars here, 10¼a10⅜c.

OIL BARRELS.

The Barrel market continues dull, and as compared with the early part of the week, prices are lower; countries, $1,25a1,30; city make, $1,35a$1,40.

RECEIPTS AND SHIPMENTS.

Receipts of Crude for the week, 11,762 barrels; from January 1st to date, 1,063,056 barrels; same time last year, 1,358,960 barrels; shipments of refined for the week, 9,226 barrels; from January 1 to date, 602,592 barrels; same time, 1874, 850,032 barrels.

Michigan Apple Crop.

The Detroit *Free Press*, of the 1st, referring to the line of the Michigan Central Railroad, says: A very large amount of apples has been delivered at the different stations during the week and shipped west Nearly double the amount has already been shipped than was estimated for the entire crop, and apple buyers were as anxious to get all that comes to market as they were in the early part of the season, and at advanced prices. There are calls for more apples west than the apple buyers can ship. A better supply of cars during the week has got off a large amount that had accumulated on the line of the Michigan Central Railroad.

MEMPHIS, November 6.—Cotton quiet; 12¼a12½c. Flour, oats and corn dull and unchanged. Lard steady; 14½a14¾c. Bacon quiet and unchanged.

Wool.

BOSTON, November 6.—Wool was quite active and prices well sustained. The prospects of trade are encouraging. Large fine Ohio and Pennsylvania is more sought after, and sales of this description have been larger than in any previous week since the new clip commenced. The transactions included 459,000 pounds, mostly X and XX fleeces, at 46a47½c. There are now no XX fleeces offering under 46c, and the most desirable lots are firm at 47a47 1-2. Medium and No. 1 fleeces have been selling at 48a 49 1-2c, and still continue quite firm. In Michigan and Wisconsin fleeces very little has been done. Some few sales were made at 42a45c for X and No. 1, but buyers have turned their attention almost exclusively to fine fleeces, as these wools are evidently very cheap at present prices. Combing and delaine fleeces continue in demand, and in prices no change has taken place; 62c is the outside for the most desirable lots of domestic down to 50a55c for delaine selections, and all lots offering continue to be readily taken. Pulled wools are selling freely, the transactions comprising 250,000 pounds for the week, principally supers at 40a50c.

Cotton.

NEW YORK, November 6.—Cotton dull at 13 9-16a13 11-16c; futures closed quiet; November 13 7-32a13¼c; December 13 3-32a 13⅛c; January 13 3-16c; February 13 11-32a 13⅜c; March 13⅜a13 17-32c; April 13 23-32c; May 13 29 32c.

NEW ORLEANS, November 6.—Cotton: demand moderate; sales 5,450 bales; quotations unchanged; receipts net 2,111 bales; gross 3,536 bales; exports Great Britain 3051 bales; stock 112,325 bales.

GALVESTON, November 6.—Cotton quiet; middlings 12½c; net receipts 2,122 bales; exports coast 601 bales; sales 2,599 bales.

CHARLESTON, November 6.—Cotton quiet; middlings 12⅜c; net receipts 2,472 bales; sales 1,200 bales.

SAVANNAH, November 6.—Cotton quiet middlings 12⅜c; net receipts 5,001 bales; sales 2,114 bales.

MOBILE, November 6.—Cotton quiet; middlings 12¼a12½c; net receipts 2,446 bales; exports to Great Britain 4,012 bales; coast 853 bales; sales 1,800 bales.

Live Stock.

CHICAGO, November 6.—Cattle—Receipts, 1,200 head; market dull, weak and unsettled; shipping $3,75a6,00, with few sales; cows $2,50a3,25; stockers and Texans $2,50a3,75. Shipments 2,400 head. Hogs—Receipts 16,000 head; market active and weak and about 10c lower; poor to extra $7,25a8,00, chiefly $7,40a7,50. Shipments 4,800 head. Sheep—Receipts 600 head; nominally unchanged.

CINCINNATI, November 6.—Hogs steady; common light $7,00a7,25; good light and packing $7,25a7,50; good butchers $7,50a 7,85.

RIVER NEWS.

State of the Rivers, Movements of Steamboats, &c.

THE water fell rapidly during Saturday night and yesterday, the marks last evening showind but seven feet. Cloudy and warmer with indication favorable for rain.

NICK WHITTEN and J. Martin are piloting the Emma Graham.

CAPT. ALBERT STEIN, of the Chas. Morgan, has been sick several days.

MRS. WHITTEN, sister of pilot Wm. Pendleton, died in Newport, Thursday night.

CAPT. JOSEPH WALTON, it is said, sent out about one million bushels of coal on the present freshet.

CAPT. B. F. EAGINN, of Nashville, Tennessee, is going into the steamboat agency business at Cincinnati.

THE My Choice is reported as being in the lead of the coal fleet, at least she was the first to pass Shousetown.

THE Abe Hays lost a fuel boat near the Point on Friday night; she struck it against the wheel of the Hawk and sunk it.

CAPT. JOE D. PHELPS, a well known and popular steamboatman, was dangerously ill in New Orleans on Sunday last.

THE Wild Duck departed for St. Louis yesterday with three barges of miscellaneous freight, mostly Pittsburgh manufactures.

JOHN DANIELS, a workman on the steamer Arlington, fell down the hatchway on Wednesday, and broke two of his ribs on the right side.

THE railroad is shipping 3,000 bales cotton from Shreveport to New Orleans, by Galveston and Belmont, on account of the low water in Red river.

CAPT. H. L. CHURCH, a brother of C. B. Church, died at Memphis on Thursday morning, and his remains have been sent to Aberdeen, Ohio, for interment.

THE Marine Railway Company of St. Louis have made hog-chains for the Great Republic. The lot will weigh forty or fifty tons, and Robert Tufts will supervise their construction.

ROBERT GORDON, a well known Pittsburgh and Cincinnati pilot, but who was engaged in boating on the Upper Missouri all this season, has returned home much improved in health.

THE Market Boy arrived from Wheeling; the Salt Valley was due last night, and will no doubt be found in port this morning. The Emma Graham from Cincinnati, is due, but she has been delayed by the fog.

EPPIE WARREN, a brother of Capt. M. D. Warren, clerk of the Gray Eagle, died on his farm in Harrison county, Ind., a few days ago. The deceased was for many years a steamboatman in the southern trade.

THERE have been but few accidents reported to the coal fleet as yet. The J. S. Mercer sunk a barge of coal belonging to Jacob Bonar, near the dam, and the John A. Wood is reported as having sunk a coal boat at White.

A WESTERN chap going into Pittsburgh on the Pan-handle train, looked across the river and seeing about two miles of towboats "nosed" up to the wharf, with their wheels sticking out, remarked, "Mister, is them *saw mills*."—*Louisville Courier.*

THE John Penney and Reindeer, while coming down the Monohgahela with two tows on Saturday morning, struck their tows against the piers of the Monongahela bridge, scattering a number of their barges, but fortunately they were secured without having sustained any damage.

THE youngest child of Mr. A. C. McConnell, clerk of the Arlington, died on the 18th, and the father did not hear of his sad bereavement until the steamer arrived here, owing to the fact that all letters and telegrams had missed him while the boat was en route to New Orleans and return.

THE Salt Valley, Capt. Sanford, arrived from Ironton, and, as will be seen by card, takes her departhre as usual to-day, at 3 P. M. This snug steamer is a permanent fixture in this trade, and in addition to giving close attention to way business she will receipt through to Cincinnati and Louisville.

FREIGHT is so plentiful at all the principal ports on the Upper Mississippi that it is the intention of Com. Davidson to keep all the packets moving until the middle of November at any rate. The business offered this fall is greater than in any previous October for years. The line is in the midst of a harvest.

CAPT. SANFORD B. COULSON is gaining rapidly in avoirdupois, from which it is evident that the Upper Missouri is a good health country. If Captain B. continues to gain flesh during the next few years, as he has during the few years past, he will overtake our friend Ackley—perhaps leave him in the lerch in this respect.

A WHEELING paper, of Saturday, says: A Government boat with a party of United States engineers, was moored near the water works yesterday. They are under Col. Merrill, and have been making a survey between Pittsburgh and Bellaire. They have been out about two months, and have about finished their labors. They have located thirteen dams between this city and Pittsburgh.

THE Third District Court at New Orleans has decided that where a passenger leaves the door of his state-room open, having at the time the key in his pocket, the boat is not liable for property stolen from the state-room. The case was Wallace Wood vs. steamer Bismarck, and Wood had got judgment in the Court below for $30, stolen in the manner as above, and the case was appealed to the Third District Court.

FRANK CATON, pilot of the Ste. Genevieve says that Fogleman's chute, or the outlets, just above Memphis, shows signs of affording better water for steamers than the main channel of the river, and as the distance saved by going through the chute is about 9¼ miles, it is a matter of importance. He came through the chute and found 10½ feet, while in the channel around it 9 feet is reported. There are, however, three or four dangerous snags in the chute which makes its navigation very difficult.

SATURDAY was a very busy day with our coal and river men, connected with the coal fleet; in consequence of the heavy fog, which did not lift until near noon, they lost a good deal of time, and as the river was falling, they were in a great flurry to get their tows out before the water got down too low. Two tugs came in contact with the piers of the Monangahela bridge, scattering their tows, but fortunately they were picked up and landed without having sustained any serious damage. The quantity of coal sent out is estimated in round numbers at 7,000,000 bushels, the destination of which is pretty well divided between Cincinnati and Louisville.

JOSEPH TARR, who was on the Tigress when she collapsed the flues of one of her boilers Friday last, and was scalded, died on Friday night. The father of the deceased, as noted in the GAZETTE of Saturday, was so badly injured by the same catastrophe, that he died a few hours afterwards. It is reported that neither the pilot nor the engineer on watch at the time of the accident were licensed, that the regular engineer had gone home, and receiving intelligence afterward that a rise was coming she was ordered to proceed to the Trap to pull off a barge of coal which was aground at that place. An unlicensed engineer was put in charge of the engines, and, as already stated, he was on duty at the time of the accident. It was feared if the boat was delayed that the water might commence to recede, hence it was important that an effort should be made at once to get the grounded barge afloat; as already stated, there was a licensed engineer employed on the boat, but he was not on hand, and as it was a case of emergency young Tarr, it was thought, could manage the engines on this occasion. The local inspectors are investigating the matter, and will no doubt be able to report their conclusions in regard to the case within the next few days.

HOME NEWS.

Iron City College.

Day and Evening classes in Book keeping, Penmanship and Arithmetic, at the Iron City College, corner Penn avenue and Sixth street. Students admitted at any time.

Killed Instantly.

As the second section of the Brinton accommodation was passing Roup Station about five o'clock Saturday evening a number of laborers attempted to get aboard. The Limited Mail was coming in at the same time from the East, and Christopher Lutz, who was standing on the track, not observing its approach, was struck by the locomotive and instantly killed. He was thrown to one side, and when picked up was dead, although there was scarcely any perceptible bruise upon his body. Not a bone was broken, nor was he cut anyplace. Lutz came from Cleveland a short time since. The inquest will be held Tuesday evening.

A MINISTER ROBBED.

Gold Watches Stolen from Rev. Dermitt.

On Saturday evening the residence of Rev. J. Dermitt, on Fifth avenue, was robbed by George Smith of two gold watches and chains. As Mr. Dermitt was entering his home, he met Smith, who was leaving. Thinking perhaps the latter was from the jail, at which institution Mr. Dermitt is chaplain, he paid but little attention to him. Upon reflection he thought something might be wrong, and making an investigation he discovered the loss of the watches. Starting out immediately, he found officer Maloy, and was telling him of the robbery, when Smith passed them. They followed him to a saloon, and saw him take one of the watches out of his pocket and exhibit it. He was arrested, upon which it was ascertained that he had disposed of the other watch. A suit for larceny will likely be instituted against him before the Mayor this morning. The missing watch is valued by Mr. Dermitt's daughter, to whom it belongs, much more highly than the one recovered. It was a gift from a deceased sister.

A DANGEROUS FOG.

Narrow Escapes of Towboats on Saturday Morning.

The towboats John Penny, Iron City and Reindeer, with tows of coal, made narrow escapes on Saturday morning from disastrous collisions with the piers of the Smithfield street bridge. The unusually heavy fog prevented the pilots from seeing their way clearly, but coolness and nerve prevented great destruction. When the pilot of the John Penny saw that a collision with the third pier was unavoidable he reversed the engines and the boat backed with all her power, but the current proved toostrong and the tow too heavy. As a last resort the cables were cut, and packages of coal were allowed to drift against the pier, but lodged on the head of the fleet tied to the pier. The spectators expected to see the whole fleet break loose, but the cables held it, and the Penny's barges lodged safely, although considerably damaged. Shortly after this accident the Iron City, with a small tow of coal packages, came down. Before reaching the bridge a huge log lodged in her wheel and clogged its working. The vessel with her tow then floated in the channel, but the "fan tail" was torn off by coming in contact with the pier. After floating by the fleet lodged at the pier, and another tow-boat came to her assistance and prevented serious damage. About an hour later the Reindeer, with four or five boats and barges, and a small barge of coal, struck one of the piers of the railroad bridge. Before reaching it the engines were reversed and the wheels backed water to the full power of the machinery. The whistle was blown for assistance from the other tugs, but they were afraid, owing to the dense fog, to move from their moorings. The current was stronger than the steam power of the boat, and together with her tow she continued to float towards the bridge, and into the very narrow passage way left for the channel. The flat boat was on the outside, and struck the shore pier of the bridge with such violence that the steamer and barges were driven into the narrow passage way that had been left. The flat was then cut adrift and afterward secured by another tug. The Reindeer then floated almost at an angle with her tow safely past the bridge toward the Point, without doing any damage.

AN EXPOSITION WEDDING.

A Prospective Hymeneal Ceremony—Something Decidedly Novel in the Way of New Attractions—The Proposition under Consideration.

The Executive Committee of the Exposition have now under consideration a very interesting and certainly novel proposition, which looks toward a wedding as one of the features of the great exhibition this week. The matter originated from a squib published in the GAZETTE some days ago, to the effect that the managers of the Exposition had been thinking of "fitting out," paying the wedding tour expenses of any hymeneally inclinced couple who might desire to be married in the Exposition building during the progress of the exhibition. Last week two of the members of the committee were waited upon by a gentleman well known in rural musical circles, who expressed a desire to accept the proposition. The subject was discussed with that minute deliberation due to its solemnity. Finally it appeared that the lady had also been consulted. In order that there might be no misunderstanding the prospective groom was requested to make out a schedule, which he considered necessary to a proper "outfit," with the cost thereof and the amount required for the tour. In response to this request the whole matter was put in writing by the expectant groom in the following communication:

OAKDALE, PA., November, 3, 1875.

A. J. Nellis, Esq., President T. I. I.:

DEAR SIR—We have made an estimate of the entire outfit for wedding in the Exposition building, and think the estimate of articles are *low*, but if your Committee think they are *over-estimated*, we may be willing to do it for *less*. Yet it may be to the interest of the management to give us a *good outfit*, as the dress may be *criticised*.

If you can afford to do *more*, add the sum to the *traveling fee*. If *less*, erase the articles you think too expensive, and we will do the best we can.

Our greatest trouble will be the *criticism* of parties who know we have been *fitted out* by the *Exposition of Pittsburgh*.

Of course you will use your judgment in regard to this matter, and as the intended bride was once a *dressmaker*, I *suppose* her outfit is not too expensive.

We will be *satisfied* with the amount named, if check is given, but would rather have more for bridal tour if committee could afford it, and we request REV. J. VANNOTE to preform the ceremony.

Hoping our bill will not be beyound the boundary line of any of your comittee. We remain

very respectfully yours,
EMMA L. PIERCE,
GEORGE A. MCBRIDE.

The matter having thus been brought down to a negotiable basis, came before the Board in an informal way on Friday afternoon, but definite action was postponed until to-day, as the members of the Board expressed a desire, and very properly too, to have a personal interview with the gentlemen before making any decision.

It seems that the only obsticle in the way now is in relation to terms. The gentleman argues that inasmuch as he is pretty well known, and the event would be something novel there would be an increased attendance at the Exposition when the affair came off and as the Exposition managers would profit thereby, they ought to take that into consideration and give a good outfit as it may be *critised*. In that he is unpoubtedly correct—his logic like his head, being perfectly level. On the other hand a moderate "outfit" is urged because this is the first exposition and there is no money to spare, while the fact of a marriage in the exposition building, and its consequent fame achieved thereby, which would be local and in some measure national—ought to be considered, that two is certainly a fair argument. A wedding, whether it be in a king's palace or the peasant's cottage is an event around which cluster the most interesting and memorable associations. But a wedding in connection with the Industrial Institute Exhibition is something entirely new in the hymeneal line—a sort of felicitous intermingling of the poetry and prose of life. A wedding at the Exposition! Why it could be made to take the wind out of all records of hymeneal splurges we have had here in a decade.

In such a delicate matter, we do not desire to intrude upon the interesting negotiations, but if a word is permitted we would suggest a compromise. Considering the mutual advantages to all parties—the fame to be gained on one side and the accruing profits on the other—it strikes us a pretty fair division would be to fix the net sum at say $250. We submit the suggestion for the consideration of the parties when they come together in consultation to-day.

THE EXPOSITION.

A List of the Premiums Awarded.

The Happy Successful Contestants—The Exhibition on Saturday—The Exposition Entering Upon the Last Week—The Reduction in Prices—A Chance for Everybody.

The Exposition to-day enters upon the last week it will be kept open, and in order that all may have an opportunity to see the great exhibition, the prices have been reduced to twenty-five cents for adults and ten cents for children. That ought to take in everybody, as it is next door to making the Exposition a grand free blow.

SATURDAY'S ATTENDANCE

was very large. From twelve to fifteen thousand persons spent the afternoon in the building looking at the sights and promenading. The Art Gallery was the center of attraction, and Power Hall engaged great attention.

FIRE.

Some excitement was created on Saturday morning, about eleven o'clock, by a slight fire which occurred at the stand of Stevenson & Foster, on the main floor, near the Paogda. There is a hand printing press, a number of specimens of book binding, type and other articles of the firm on exhibition there. The press is being run by a small boy, and at intervals it is necessary to apply carbon oil to the rolls. While this was being done the bottle slipped from the youth's hand, and falling upon a charcoal roaster was dashed to pieces. The consequences may be easily imagined. The flames leaped up over the counter, but before any serious damgae resulted a heavy cloth was thrown over it and the flames were smothered. The destruction of a ball of twine and several dozen type was the extent of the mishap. The flames were quenched so rapidly that only those who were near had the opportunity of seeing it.

"CABINET."

Messrs. Miller, Force and Co., who had entered some of their fine brands of liquors, were awarded the first premium on their superior Cabinet whisky.

DELICIOUS.

The Exposition Taffy, made by Messrs. Kramer & Vogleson, of No. 51 Sixth street, has been pronounced by thousands—adults as well as juveniles, delicious. It is really something exceptionally find in this line, and deserves its extended popularity. It is made out of perfectly pure material and has a rich flavor, very rarely obtainable in such manufactures.

JUDGES OF RIVER IMPROVEMENT MODELS.

The following gentlemen have been selected to act as judges of the models now on exhibition for the improvement of the Ohio river: Representing the manufacturing interests, B. F. Jones and Orlando Metcalf; representing the river interests, John F. Dravo and Richard Gray; representing the railroads, W. P. Shinn.

BRIEFS.

Chief Ross on Saturday entered information before Mayor Phillips against C. P. Bailey, proprietor of the dining-room, and Charles Butz, for illegal liquor selling. He alleges that they have been selling the beverage up in the smoking room, though he says none has been sold within the past several days. The defendants had a partial hearing on Saturday afternoon and the case will be finally disposed of to-day.

SQUELCHING THE FLAMES.

About five thousand people gathered on Saturday in the Exposition yard to witness the working of the Connelly fire extinguisher. The extinguishers, as has always been the case, completely squelched the fire that was made. In doing this it threw the water five hundred feet from the place where the gas was manufactured. There were present representatives from all the large oil firms in this vicinity, and from manufacturing establishments and railroad machine shops hereabouts. Everybody conceded that the extinguisher "fitted the bill," and worked admirably.

These is one peculiarity about this extinguisher which extinguishes it from all others, and that is that it can keep up the same even pressure from four to five hours. The extinguisher is no experiment, but has demonstrated its great practicability and superiority in many arts of the most severe character. It well deserves its name, for no fire would ever get a headway if it was used. It neither smothers nor keeps the fire merely in check, but completely and in less than a moment extinguishes the fiercest fire that can be made. It won the premium.

A NEW PITTSBURGH BOOK.

"Our Western Border."

We have enjoyed a rare and wonderful treat in perusing "Our Western Border"—the new book of our talented townsman, Charles McKnight, Esq., and just issued by the well-known Philadelphia house of J. C. McCurdy & Co. It is a portly and very handsome octavo, of near eight hundred pages, most beautifully illustrated by the best New York artists, and filled to repletion with the heroic deeds and daring personal combats of the old bordermen. It contains the cream of all the rare old Border Chronicles, (now long out of print and almost impossible to procure) together with a large amount of fresh and original matter derived from authentic sources.

"Truth is stranger than fiction," is the motto fitly chosen for this thrilling and fascinating work. Surely nothing within the broad realms of fancy can equal in wondrous daring and absorbing interest, the romantic and desperate adventures of such well-known hunters and Indian trackers as Boone, Jack. Zane, Kenlon, McColloch, McClellan, the Poes and the Wetzels. The biographical sketches of Brady, Girty, Johnson, and the mysterious Major Rose, are fresh and exceedingly interesting and offer valuable contributions to Border History. The famous combat between the Poes and Big Foot is given in detail, and is the only reliable account of that desperate struggle ever yet published.

One glance over the table of contents will serve to show the large variety and extent of Mr. McKnight's collection. One very interesting chapter is devoted to the heroism and trials of pioneer women, and one to the pluck and spirit of the Border boys; "Our Western Border" will, we predict, prove a famous boys' book. We "have been there" once ourselves, and know how it is. Now that, in view of the approaching centennial, the mind of the country is running back to the heroic times of revolutionary struggle, this work is peculiarly approprirte. We can safely command it to all, and confidently predict that this new Pittsburgh book will have an extraordinary sale thoughout the land.

"Our Western Border" will be sold only by subscription at $3.00, and it is a cheap and honest book at the prices, without any "padding," and equal to a work of a thousand pages. The publisher will immediately commence a canvass of these cities and adjacent towns and country. We sincerely and cordially bespeak a careful persual of the book, feeling sure that it deserves the highest confidence in the integrity of the its narative, and that in literary style is very creditable to its author, on whose account not only but as well on account of the intrinsic excellence and interest of the work we pronounce it the duty of every family to possess a copy. It is gotton up in the best style of the binders' art, and is cheap at the price.

Marble Mantels.

We have set up, for exhibition, in our show rooms, 319 and 321 Liberty street, Pittsburgh, Pa., the largest variety, and the most beautiful stock of mantels in the city, which we will sell at prices to suit the times. We also manufacture and keep on hand, GRATES, GRATE FRONTS, AND FENDERS, made in neat style and finished in a handsome manner. Our new

PENDULUM AGITATING GRATE,

is the latest and simplest improvement in the grate line. It is neat and efficient, and will clean out the ashes in two seconds, and do it thoroughly. The grate is so arranged that the fine dust is mostly carried up back of the grate, into the chimney, and not on fender or over the room. Our shaker is so constructed that it removes the ashes from the lower part of the grate, without disturbing the upper part of the fuel, thereby securing a more thorough combustion, and a greater amount of heat from the coal, than would otherwise be obtained.

Our grate and shaker are simple, and cost so little to fit them up, ready for use, that we can sell them at half the price that other shakers have been selling for.

Our grates are all warranted to give satisfaction.

N. B.—"As seeing is believing," purchasers are invited to call and examine our mantels and see our Pendulum grate in practical operation at 319 and 321, Liberty street, Pittsburgh.

The Leading Tonic and Corrective of the Age.

Its purity, remarkable efficacy in obviating digestive weakness or irregularity, the promptitude and certainty with which it supplies vigor to the strengthless, its tranquilizing effect upon the brain and nerves, and finally, its adoption by the medical profession as a means of strengthening and regulating the vital forces, justly entitled Udolpho Wolfe's Schiedam Aromatic Schnapps to be regarded as the leading onic and corrective of the age.

MR. GEORGE CLARKE plays in London under his full name, George Clark O'Neill. This, we suppose, is because there are two Clarkes—Mr. John Clarke and Mr. John Sleeper Clarke—already prominent on the London stage.

Smith to borrow on his individual bond such sums of money as his trustees may deem necessary to carry out the provisions of the composition, the same to be paid to John R. McCune, trustee. The trustees are to have power to execute mortgages. This decree is to become operative when the committee of said debtors, the Cascade Iron Company, and the Escanaba Furnace Company shall have filed with the Clerk of this Court there written assent thereto.

William Nicholson, bankrupt, Allegheny county. Application was made for an injunction, and a hearing upon the same was fixed for the 12th inst, and in the meantime restraining J. W. Carnahan et al. from performing the act sought to be enjoined.

Dragging Out Existence.

The nervous, weakly invalid does not enjoy life, but merely "drags out existence," as the phrase is. Unfitted for the active pursuits of life, and incapable of partaking of its pleasures to which health alone can give a zest; disinclined to social intercourse, and a prey to melancholy, the valetudinarian is indeed an object of pity. Yet there is nothing in all this that cannot be remedied by that genial alterative tonic and nervine, Hostetter's Stomach Bitters, which supplies deficient stamina, braces the nervous system, and overcomes those bodily irregularities to which the nervous weakness is most frequently attributable. Diseases of the kidney and bladder, imperfect digestion and uterine troubles are fertile sources of debility. Their eradication, however, becomes a matter of certainty when Hostetter's Stomach Bitters are systematically used for that purpose. The Bitters likewise annihilate and prevent fever and ague and other debilitating febrile complaints of a malarial nature.

FOR SALE

308,000 ACRES

VALUABLE LANDS

IN KANSAS.

By direction of the Honorable Secretary of the Interior, the undersigned will receive sealed bids for the purchase of any or all of the unsold lands west of the Neosho River, along the southern line of the State of Kansas embraced within what is generally known as the "CHEROKEE STRIP."

These lands are offered for sale in compliance with the provisions of an act of Congress approved May 11, 1872, [U. S. Statutes at Large, vol. xvii, pp, 98 and 99.]

They will be sold to the highest bidder for cash, in quantities not exceeding one hundred and sixty acres, at not less than two dollars per acre for all of said lands lying east of the Arkansas River, and one dollar and fifty cents per acre for such lands as lie west of said River.

Printed lists, describing the lands hereby offered for sale by their proper legal subdivisions and indicating the minimum price at which each tract is held, will be sent by mail to the address of any person making application therefor to the Commissioner of the General Land Office, or to the Register and Receiver of the local offices at Wichita and Independence, Kansas.

Persons offering to purchase may bid for as many tracts as they may desire, but each bid must be separately made and sealed, and must be for not more than one hundred and sixty acres, (and conform to the legal subdivisions embraced in the list.)

Bids must be accompanied by 10 per cent. of the amount bid, as a guarantee of the good faith of the bidder, which sum, in case the land is awarded and the balance not paid, will be forfeited. Should any bid be rejected, the sum deposited will be returned to the proper party.

Parties whose bids are accepted will be notified of such acceptance as soon after the opening of the bids as practicable, and if within forty days after such notice has been duly mailed, payment in full be not made to the Commissioner of the General Land Office of the amount bid, the land upon which such bid was made will be again subject to sale.

The ten per cent. deposit required to accompany bids may be remitted in Post-office orders, certificates of deposit, certified checks on some Government depository payable to the order of the Commissioner of the General Land Office, or in currency.

The right to reject any and all bids is expressly reserved.

All bids must be sealed and addressed to the "COMMISSIONER OF THE GENERAL LAND OFFICE, WASHINGTON, D. C.," and indorsed "BIDS FOR CHEROKEE STRIP LAND."

Bids will be received as above invited until 12 o'clock noon of the thirtieth day of November, 1875, after which they will be duly opened and acted upon.

S. S. BURDETT,
Commissioner of the General Land Office.
WASHINGTON, D. C., Sept. 15, 1875.
